MY PROFILE

Creative and detail-oriented Full-Stack Web Developer with a strong background in UI/UX design and hands-on experience in front-end and back-end development. Skilled in HTML, CSS, JavaScript, and WordPress, with a focus on building responsive, user-friendly websites. Experienced in managing domains, website hosting, SEO optimization, and integrating multimedia content. Proven ability to collaborate across departments and deliver secure, scalable web solutions.

EXPERIENCE

February 29, 2024 - July 30, 2025

FULL STACK DEVELOPER/INFORMATION SECURITY ASSOCIATE (OnSite)
Biosite Medical Instrument - San Juan Metro Manila

- Designed and developed scalable illustrations, vector graphics, icons, and infographics using Adobe Illustrator for both web and print platforms.
- Created responsive website layouts, wireframes, and UI/UX interfaces for websites and mobile applications to enhance user engagement and usability.
- Built and maintained internal web systems using HTML, CSS, JavaScript, and CMS platforms such as WordPress, aligning front-end designs with backend functionality.
- Managed the company's websites and domain settings, ensuring site availability, security, SSL configuration, and DNS management for seamless digital operations.
- Regularly updated website content, handled backups, monitored performance, and optimized load times and SEO compatibility.
- Designed print materials such as business cards, brochures, posters, flyers, and packaging with attention to layout, paper types, printing techniques, and finishes.
- Integrated multimedia elements—animation, video, and audio—into digital assets for social media, internal presentations, and marketing campaigns.
- Enhanced and manipulated images using Adobe Photoshop, ensuring consistent branding and visual appeal across all media.
- Produced marketing visuals and collaterals for events including conventions, product launches, and corporate gatherings.
- Collaborated with the Social Media Manager to create SEO-friendly website content and engaging visual assets for online campaigns.
- Monitored Facebook trends and created compelling captions and imagery to support audience engagement across social media platforms.
- Maintained content across multiple social media accounts, ensuring alignment with brand tone and marketing goals.
- Provided hands-on support for website-related troubleshooting, tech support, and front-line IT requests.
- Participated in internal and external information security audits to meet compliance requirements.
- Documented security incidents, system changes, and preventive measures to support IT and InfoSec operations.
- Assisted in IT administrative tasks including user account setup, basic network support, and warehouse system maintenance.
